### Grand County Emergency Information Webpage

Grand County has posted a website for current, accurate emergency information. The website, <http://www.gcemergency.com>, will simply carry current, accurate information regarding major emergencies or disasters affecting Grand County.

This site will be maintained by the Grand County Office of Emergency Management with information being provided by the Incident Commander, and Public Information Officer, during an active emergency.

Please check this site for the most current and accurate information before calling 911. In order for Grand County Communications Center and our emergency responders to best focus on the emergency, phone calls often can not be answered in a timely manner. The website is available to everyone and will have information more timely and accurate than can be given by phone.

Please share this website with anyone who may have an interest in emergencies in Grand County.
